

Timothy Joseph Allen
The Anatomy of Light
Volume I: Figure Drawings 2005 - 2007

"The business of the artist is to see to it that his talent be so developed that he may prove a fit instrument for the expression of whatever it may be given him to express."

- Harold Speed from *The Science and Practice of Drawing*

This exhibition presents work selected from a collection of more than 250 drawings produced during weekly life-drawing sessions over the past two years.

What began as a means of *allenamento* has become a vehicle in and of itself for formal experimentation and honed expression.

I hope you enjoy looking at the work as much as I do.

Timothy Joseph Allen
October 13th, 2007, Rome.

Special Thanks:

CAFÈ PERÙ
LA PORTA BLU GALLERY AND SCHOOL
ETTORE CICCANI, CORNICIAIO
AND LAST BUT NOT LEAST: STEF!

This exhibition is also made possible by a contribution from:
THE AMERICAN UNIVERSITY OF ROME
